Middle Link Kit

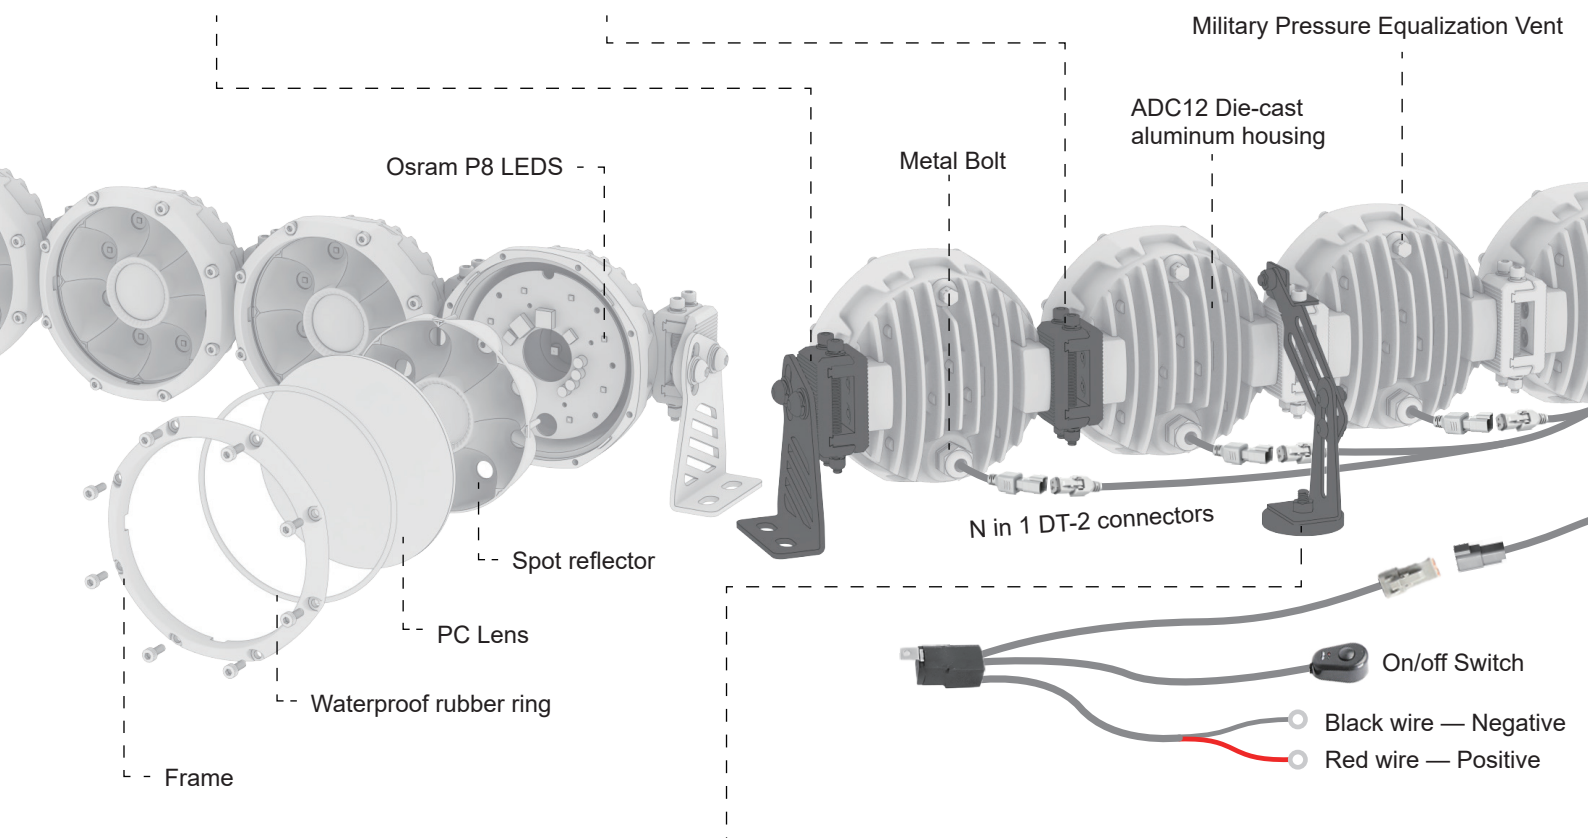

How To Link The Lights?

Step 1 — Attach left clamp to right side of first pod

Step 2 — Attach right clamp to left side of second pod

Step 3 — Align pods and interlock both clamps

Step 4 — Insert through bolts and fully tighten

3

Rear Support Bracket Installation

Step 1 — **Position the Light Bar**

Place the light bar face down on a flat, stable surface. Install the support brackets at approximately 1/3 and 2/3 of the light bar length.

Step 2 — **Secure the Brackets**

Remove the long through bolts from the selected linking points. Align the bracket mounting tabs with the bolt holes and reinstall the through bolts.

Step 3 — **Adjust the Brackets**

Rotate each bracket until the rubber pad sits firmly against the vehicle surface.

Step 4 — **Tighten**

After alignment, fully tighten all fasteners and ensure the light bar is secure.

Warranty

- **Duration:** 2-Year Warranty from the date of purchase.
- **Coverage:** Manufacturing defects, LED failure, waterproofing issues.
- **Exclusions:** Damage from misuse, crashes, modifications, or improper installation.
